## OVERVIEW

Attention! The patient can have health issues linked to factors other than minerals/heavy metals; it has to be understood that the system only measures mineral and heavy metal levels in the tissue of the hand palm. Therefore a particular physiological health problem can be linked to reasons other than mineral/heavy metal issues. It has to be understood that SO-Check only measures mineral and heavy metal levels in the tissue of the hand palm. Therefore a particular physiological health problem can be linked to reasons other than a mineral/heavy metal issue.

Caution! These values are not for diagnostic purposes; these are only an interpretation of correlations between minerals & oligo-elements tested with SO-Check. These relationships have been widely documented throughout the scientific literature on micronutrients and ortho-molecular medicine. The SO-Check test is only a functional element of balance in the body.
